

General Labourer - Manufacturing

Eguana Technologies Inc. – Calgary, AB

Company Overview

Eguana Technologies (TSX: EGT.V) designs and manufactures high performance power electronics for residential and commercial energy storage systems. Eguana has more than 15 years' experience delivering grid edge power electronics for fuel cell, photovoltaic and battery applications and delivers proven, durable, high quality solutions from its high capacity manufacturing facilities in Europe and North America.

The company's mission is to bridge the gap between electricity supply and demand by making distributed energy storage more economic, flexible and reliable to enable the highest penetration of renewable energy sources into the grid. Its vision is to become the world leading supplier of intelligent power electronics for grid tied residential storage applications. Eguana's product philosophy is to serve the renewable energy markets with innovative, cost efficient and reliable products that are agnostic to different technologies and easily customized to meet the specific needs of the company's partners.
