

Senior Operational Accountant

Calgary, AB, Canada

Eguana Technologies is growing! An industry leader in the renewable energy sector with key company locations in the United States, Europe, and Australia, Eguana designs and manufactures high-performance residential and small commercial energy storage systems, a critical piece of the worldwide power grid transformation. Our product solutions are based on proprietary and patented technology developed over the last twenty plus years. We pride ourselves on maintaining and growing a positive work culture with balance while providing opportunities to grow.

We are seeking an ambitious and focused Senior Operational Accountant to join our dynamic and growing team. You must be well versed in accounting principles, comfortable with strategic planning initiatives, numbers and data, with specific attention to detail. You will be a key team member reporting directly to the Controller.

Job Type: Full Time

Start: Immediately

Responsibilities

As a member of the accounting team, you will be essential to the financial controls and processes required to run the business. In addition, you will also be accountable for the following:

- Ensure inventory is being tracked and recorded appropriately, which would involve liaising with the Operations team to resolve inventory discrepancies, assisting in inventory counts and investigating count results, analyzing inventory NRV and impairment testing, and ensuring inventory data is accurately reflected in the accounting system
- Managing the customer sales order and invoicing process, including preparing and sending sales orders and invoices to customers, following up on outstanding receivables, and evaluating the collectability of aged receivables
- Assist the Controller in various month-end related tasks and reconciliations for debt requirements
- Assist the Finance team in the preparation of the monthly, quarterly and annual financial packages
- Act as a change agent, evaluating the current processes and procedures of the accounting team, developing process efficiency improvements and implementing these improvements across the organization as necessary

- Assist the controller in developing, testing and monitoring accounting policies and financial practice to for a formal COSO based internal controls program
- Ensure all CRA related documentation is submitted in a correct and timely manner
- Liaising with external auditors in a timely manner
- All other accounting and admin duties as assigned by the Controller or CFO
- Light international travel may be required

Requirements

- Bachelor Degree in Business, Accounting, Finance or related discipline
- Accounting designations (CPA)
- 3 – 5 years relevant public practice or industry experience in a senior level role with strong technical accounting and finance knowledge
- Experience with inventory accounting and management for a manufacturing company
- Self-motivated with a positive attitude and a results-oriented approach
- Excellent English written and oral communication skills
- Excellent organizing abilities
- Great attention to detail
- Good with numbers and figures and an analytical acumen
- Good understanding of accounting principles and practices
- Excellent knowledge of MS Office and familiarity with relevant computer software (D365 Business Central is a plus, but not required)

Consideration will be given to

- Public accounting or audit experience
- Strong internal controls experience
- Experience in organizations with multiple legal and international subsidiaries and business divisions
- Experience with multi-currency
- Experience with D365 Business Central ERP
