

Eguana Updates Hawaii Shipments, Receives \$1.1 Million in New Orders

CALGARY, Alberta, Sept. 10, 2019 -- Eguana Technologies (TSX.V: EGT) (OTCQB: EGTYF) is pleased to announce the receipt of an additional \$1.1 million in new orders from long standing partner Hawaii Energy Connection (HEC). The new purchase orders, which follow a record setting month of shipments to Hawaii for Eguana, are expected to ship within the next 4 - 6 weeks.

“Each of our residential solar installs now come with an Eguana battery, our companies have worked together for a number of years perfecting the integration with our EGear controller, and we believe we have the most reliable and capable product on the market,” said Chris Debone, Managing Director of HEC.

Steve Godmere, Managing Director of HEC, added, “The Hawaiian renewable market went through a difficult time over the last year and a half, we stayed the course and are now seeing significant increases in solar + storage installations.”

“Traction in Hawaii has ramped up over the past few months and these new orders are a reflection of this. They also come on the heels of our highest month of shipments into the Hawaiian market since beginning our relationship with Hawaii Energy Connection many years ago. As part of the increase in demand we are in the process of transitioning to a biweekly release schedule to ensure product availability as we head into the busy installation season,” stated Eguana CEO Justin Holland. “Our partnership with Steve and Chris at Hawaii Energy Connection remains strong and we are very happy to be part of the success they are having in revitalizing the solar + storage markets in Hawaii.”

Evolve – Home Energy Storage Systems

Evolve is a fully integrated residential energy storage system that includes the company’s proprietary power electronics system, LG Chem low-voltage battery modules, and a comprehensive user interface. The system is rated at 5KW AC output with a modular battery design based on a 6.5 kWh battery, which is scalable from 13 to 39kWh in storage capacity. The NEMA 3R wall-mounted package is suitable for indoor and outdoor installations. The package is backed by a 10-year standard warranty.

The Evolve supports grid-connected solar self-consumption, time of use, and backup power. It is now available in the United States and in Caribbean markets, with certification standards matching UL1741, California’s Rule 21, and Hawaii’s Rule 14H.

About Eguana Technologies Inc.

Based in Calgary, Alberta Canada, Eguana Technologies (EGT: TSX.V) (OTCQB: EGTYF) designs and manufactures high performance residential and commercial energy storage systems. Eguana has two decades of experience delivering grid edge power electronics for fuel cell, photovoltaic and battery applications, and delivers proven, durable, high quality solutions from its high capacity manufacturing facilities in Europe and North America.

With thousands of its proprietary energy storage inverters deployed in the European and North American markets, Eguana is one of the leading suppliers of power controls for solar self-consumption, grid services and demand charge applications at the grid edge.
